

District Councillor Report September 2026

As always there was no MSDC meeting in August. The next meeting will be on the 24th of September.

The MSDC and Babergh have reiterated their firm objection to the overground Pylons Project that has attracted so much ire in Norfolk, Suffolk and Essex.

On the 3rd there was another meeting at New Street Carpark. This time I left the get together feeling upbeat. The Officer handling the issue seems energetic, focused and optimistic and new, feasible plans were presented. The tenants stand to be consulted.

Yours Sincerely,

Anders Linder
