

**NP Committee**  
**Working Party Minutes**  
**10/5/17**

Present: GRD IP RT DD OL

Apologies: SC

1. GRD gave feedback from the diagnostic conversation she had with Locality on 8.5.17 regarding the application for technical support. There had been a positive response but the timescale affects the predicted time-line of the NP as the completed work for site assessments is estimated to take 3-4 months. As such, a new time-line for the NP was discussed and will be issued shortly.
2. It was agreed that after the site assessments have been completed we shall have an Open Event with all sites included for public comment plus updated figures from MSDC on their housing numbers
3. Tasks to be completed in the meantime:
  - All to revisit The Village Design Statement and consider points relating to their specific areas. Can these be incorporated into the NP or do they require an up-date? Discussion at next meeting.
  - Identify as individuals what we consider to be 'green spaces' in Stradbroke and why for discussion at next meeting.
  - Consider the current list for 'our vision' for further up-dating at the next meeting. Be aware that this will be added to again after the site assessments.

Date and time of next meeting:

Wednesday, May 31st 2017. 8.00pm Webb Room
