

NP Meeting

22.2.17

Minutes

Present: GRD IP RT OL DD SC

These are not true minutes but salient points that arose from our meeting preparing the draft. In response to Ian's feedback the following were agreed:

1. The initial 'editor' would be GRD with the draft plan going on to IP and his colleague
2. GRD would prepare an Introduction, Stages report and Key Issues. At the next meeting the Committee will have a 'mind shower' on the Vision and Objectives.
3. Under Housing IP reminded us that a robust housing need in-put would be necessary. IP will forward background work on this to SC. Later in the process, the Functional Cluster would be given oversight of this taking care that Stradbroke Parish are aware first.
4. It was agreed that Design and Features would be absorbed within Heritage and Environment
5. After discussion concerning census data, IP offered to share new information on where Stradbroke residents actually work rather than simply distance.
6. Reassurance was given that the clauses relating to Local Economy were typical of other NPs.
7. It was agreed that points about broadband and mobile signals would be kept in Local Economy for now but will probably be cross-referenced elsewhere
8. IP is to forward to OL some indicators regarding standards for garden sizes
9. A fully supportive email had been received from Suffolk Wildlife Trust and it was agreed to send them full details to acquire a full quote. GRD will continue to pursue others for site assessments (IP has provided 2 more email addresses which GRD has contacted). She will circulate details as they come in and after agreement will write to the PC requesting payment and support.

Date and Time of next meeting: Wednesday, March 29th 2017 8.00pm Webb Room
