

The Parish of Stradbroke

The Parish of Stradbroke encompasses the village centre and the surrounding greens, including Battlesea Green, Barley Green, Pixey Green, Ashfield Green and Wooten Green.

Stradbroke decided in 2014 to investigate the possibility of drawing up a Neighbourhood Plan. A public meeting was held on 19th May 2014 where there was clear support for the construction of a Neighbourhood Plan.

A committee was established, reporting to the Parish Council who are responsible for the delivery of the plan.

Community engagement with the Neighbourhood Plan has been and continues to be the underpinning of the way forward. The village has already considered their visions for the future in a parish wide questionnaire, and the next step is for the villagers to give opinions about potential sites in the village that are being offered for development.
